PINK, ROCK AND BLACK SALT

Edible salt

6 products. Price on request.

Himalayan Pink Salt, Fine

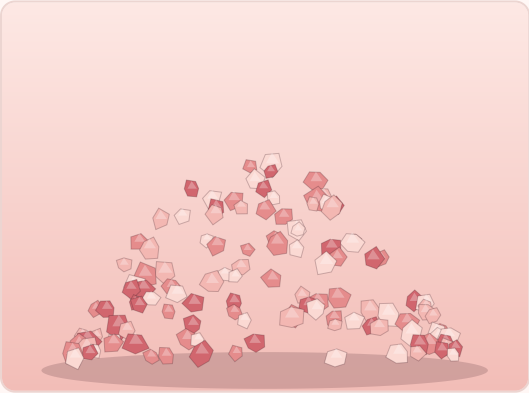

Fine grain pink salt for table, baking and seasoning blends.

Himalayan pink salt in a fine grain that pours freely from a shaker and dissolves quickly into food. The crystals are mined in Pakistan's Salt Range, washed, dried and milled, then sieved so the grain stays even from the first bag to the last. The soft pink to peach colour comes from naturally present trace minerals, and we add no colour, bleach or anti-caking agent. It suits retail table salt, seasoning blends, baking, and snack makers who want a clean, natural label.

- Retail pouches and shaker jars
- Spice blends and snack seasoning
- Baking and everyday cooking

Grain size	About 0.2 to 0.8 mm	Colour	Pale pink to peach
Packing	500 g to 25 kg	Storage	Cool, dry place, sealed

PRICE ON REQUEST · MOQ 25 MT · PACK 500 G – 25 KG

Himalayan Pink Salt, Coarse

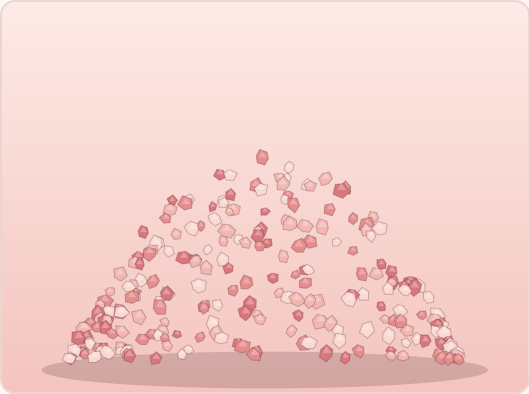

Larger crystals for grinders, brining and finishing.

Larger crystals, made for grinders and finishing. Coarse pink salt gives a satisfying crunch on grilled meat, roasted vegetables, salads and chocolate, and it holds its shape in a mill. It also suits dry brines and salt-crust cooking, where bigger grains dissolve slowly. Each batch is sieved so mills do not clog on dust or oversize pieces, and we fill grinder bottles, jars and pouches under the AGS brand.

- Refillable grinder bottles
- Brining and salt-crust cooking
- Gift sets and hampers

Grain size	About 2 to 5 mm	Colour	Pink, with white and rosy crystals
Packing	Grinders, jars, 1 to 25 kg	Storage	Cool, dry place, sealed

PRICE ON REQUEST · MOQ 25 MT · PACK GRINDERS, JARS, 1–25 KG

Himalayan Pink Salt, Granules

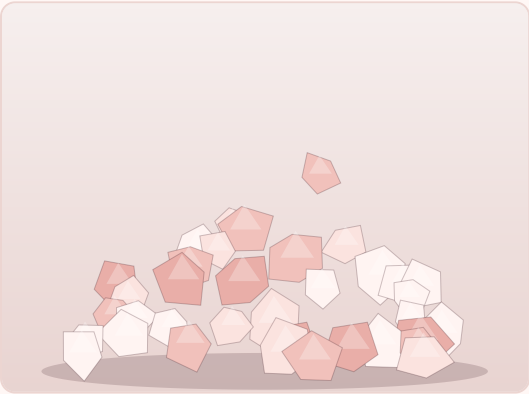

Even granules for mills and food manufacturing.

Even granules between fine and coarse, a common choice for salt mills and food factories. The uniform size gives predictable flow on filling lines and consistent dissolving in brines and sauces. Granules are washed, dried and screened to a tight size range, and you can ask for a custom range, for example a finer cut for extruders or a coarser one for mills. Available in bulk bags and retail packs under the AGS brand.

- Salt mills and grinders
- Food manufacturing and brines
- AGS-branded retail packs

Grain size	About 0.8 to 2 mm	Colour	Pink to light rose
Packing	1 to 25 kg bags	Custom range	On request

PRICE ON REQUEST · MOQ 25 MT · PACK 1 – 25 KG BAGS

Edible Rock Salt Lumps

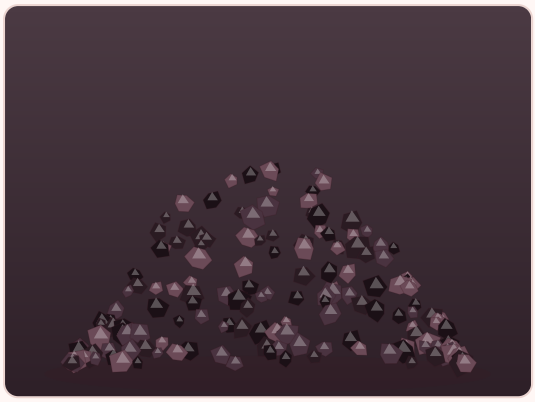

Whole lumps in white to blush tones for cooking and curing.

Whole lumps of natural rock salt in white, blush and pink tones, cut from the mine and sorted by size. Edible-grade lumps are used for slow-dissolving cooking, curing and pickling, and as table pieces to be ground at home. Lumps are also the base for salt blocks, candle holders and décor. We grade by size, from small pieces to large display chunks, and pack them in woven polypropylene or jute bags for export.

- Curing, pickling and brining
- Grinding at home
- Display bowls, spa baskets and décor

Size	About 20 to 80 mm	Colour	White to blush and pink
Packing	25 kg PP or jute bags	Grade	Edible

PRICE ON REQUEST · MOQ 25 MT · PACK 25 KG PP / JUTE BAGS

Black Salt (Kala Namak)

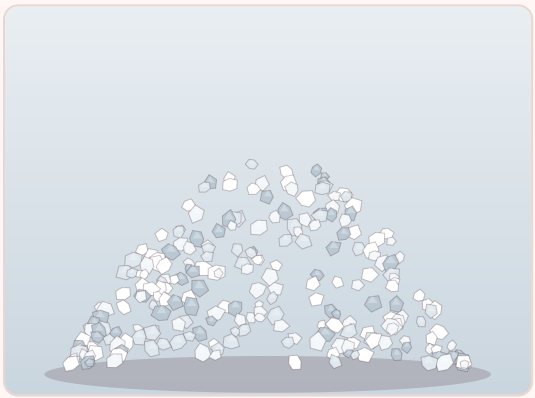

Savoury, sulphur-rich salt for chaats, chutneys and vegan cooking.

Kala namak, or black salt, is a kiln-fired rock salt with a sulphurous aroma often compared with boiled egg. That savoury note is why it is used in chaat masala, raita, chutneys and many vegan egg dishes. Traditionally the salt is fired with charcoal and spices, then cooled and ground to a purple-grey powder. We supply it as lumps, granules or powder.

- Chaat masala and spice blends
- Chutneys, raita and drinks
- Vegan egg-style dishes

Form	Lumps, granules or powder	Colour	Dark purple-grey, pinkish when ground
Aroma	Sulphurous and savoury	Packing	100 g to 25 kg

PRICE ON REQUEST · MOQ 20 MT · PACK POWDER, GRANULES, LUMPS

Industrial and Animal Salt

Bulk salt for de-icing, water softening and livestock licks.

Bulk salt for work rather than the table. Industrial and animal grades are used for de-icing paths and roads, softening water, curing hides, textile processing and as mineral licks for livestock. We supply crushed salt in bulk bags and pressed blocks, graded by size, with the purity and moisture you specify. Because these orders ship in volume, we agree the packing and loading plan with you before quoting.

- Road and path de-icing
- Water softeners
- Livestock licks and blocks

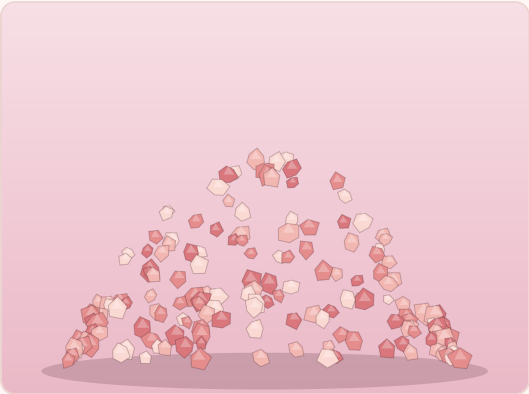

Form	Crushed salt or blocks	Packing	Bulk bags, 25 or 50 kg
Shipping	Full container loads	Specification	Agreed per order

PRICE ON REQUEST · MOQ 50 MT · PACK BULK BAGS, BLOCKS

LAMPS, TILES, BATH SALT

Salt décor & wellness

6 products. Price on request.

Mineral Bath Salt

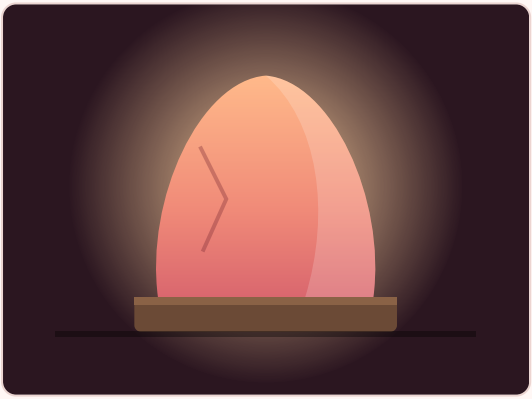

Coarse pink crystals for soaking, ready for scenting and blending.

Coarse mineral crystals meant for the tub. Pink bath salt dissolves slowly and gives the water a pale blush. It is sold plain, or as a base for blending with essential oils, dried flowers and colour. We wash and sieve the crystals, then fill jars, pouches, sachets or gift sets.

- Retail jars and pouches
- Spa and hotel amenity sets
- Base for scented blends

Crystal size	Coarse, about 2 to 6 mm	Colour	Pink to rose
Fragrance	Unscented; blending on request	Packing	Jars, pouches, gift sets

PRICE ON REQUEST · MOQ 10 MT · PACK JARS, POUCHES, GIFT SETS

Natural Salt Lamp

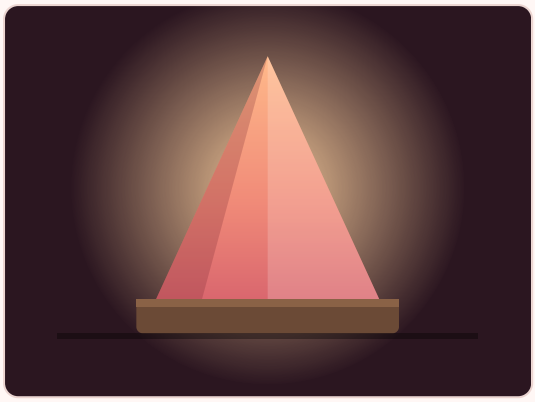

Hand-carved natural lamp with wooden base, cord and bulb.

A hand-carved lamp made from a single block of Himalayan salt, set on a wooden base with a cord, switch and bulb. When lit, the salt gives a warm amber to pink glow, and no two lamps look alike. Lamps are sold by weight band, from desk size up to large floor pieces. Each is packed in a gift box with foam protection for export, and the wiring can be supplied for the plug standard of your market.

- Bedside and desk lighting
- Gift shops and homeware stores
- Spas, cafes and hotels

Weight bands	2-3 kg, 4-6 kg, 8-10 kg	Base	Wood
Electrics	Cord, switch and bulb	Packing	Gift box with foam

PRICE ON REQUEST · MOQ 500 pc · PACK 2–3 KG, 4–6 KG, 8–10 KG

Shaped Salt Lamp

Pyramid, sphere and heart shapes for gifts and retail.

Salt lamps cut into shapes such as pyramid, sphere, heart and cube. Shaped lamps are smoother and more uniform than natural ones, which makes them easy to display on shelves and sell as gifts. Each is polished, mounted on a wooden base and wired for your market. We can discuss custom shapes for larger orders.

Gift retail · Corporate gifts · Home décor displays

Shapes	Pyramid, sphere, heart, cube	Finish	Polished
Electrics	Cord, switch and bulb	Packing	Gift box

PRICE ON REQUEST · MOQ 500 pc · PACK GIFT BOX

Salt Candle Holder

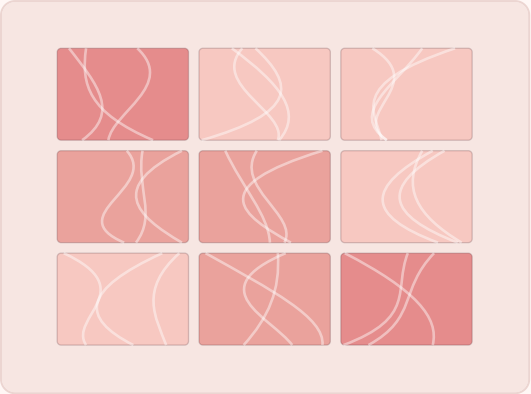

Carved salt block that warms to a soft pink glow.

A carved salt block with a hollow for a tea light. As the candle warms the salt, it glows a soft pink-orange. Sold singly or as a set of two, in a gift box with tea lights if you wish. It is a simple, light item that suits home, spa and gift retail.

Table and shelf décor · Spa and wellness shops · Boxed gift sets

Format	Single or set of two	Includes	Tea lights on request
Colour	Pink to orange	Packing	Gift box

PRICE ON REQUEST · MOQ 500 pc · PACK SINGLE OR SET OF 2

Salt Tiles and Bricks

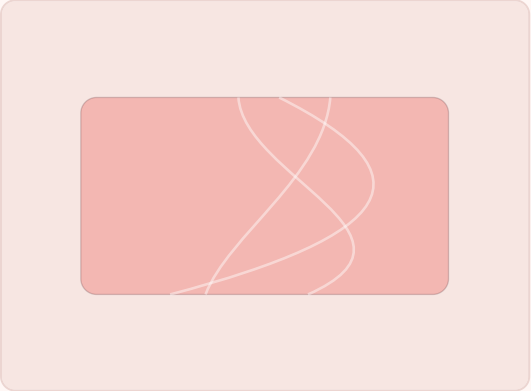

Cut, polished blocks for feature walls, spas and saunas.

Cut and polished blocks of rock salt for building. Tiles and bricks are used to clad feature walls, build salt rooms and saunas, and make bar fronts and displays. Standard sizes are available, and we cut to your drawings. Salt is soft and attracts moisture, so we advise on installation, sealing and the right adhesive, and pack tiles in cartons or crates for safe export.

- Feature walls
- Salt rooms and spas
- Saunas and bar fronts

Sizes	Cut to your drawing	Finish	Polished or rough
Colours	White, pink and orange tones	Packing	Cartons or wooden crates

PRICE ON REQUEST · MOQ 1,000 pc · PACK CUSTOM SIZES

Salt Cooking Slab

Plates and slabs for searing, serving and chilling at the table.

A slab of Himalayan salt for the table or the grill. Heated slowly, it can sear thin cuts of meat, fish, prawns and vegetables, and it seasons the food lightly as it cooks. Served cold, it holds sushi, fruit and cheese. Plates come in rectangles and rounds with optional holders, in a gift box. Slabs must be heated and cooled gradually, so we include simple care instructions you can print on your pack.

- Searing at the table or on a grill
- Chilled serving platters
- Restaurant and hotel service

Sizes	20×20 and 30×20 cm, others on request	Shape	Rectangle or round
Extras	Holders and bamboo trays	Packing	Gift box

PRICE ON REQUEST · MOQ 300 pc · PACK 20×20, 30×20 CM

BASMATI AND NON-BASMATI

Rice

4 products. Price on request.

1121 Sella Basmati Rice

Extra-long parboiled grains that stay separate when cooked.

1121 is among the longest-grain basmati varieties, and Sella is the parboiled form: the paddy is soaked and steamed before milling, which gives a golden, firm grain that stays separate and does not break easily when cooked. It is the standard choice for biryani, pulao and large-batch catering, and it travels well. Cooked grains lengthen noticeably, and the aroma stays light and nutty. We mill, sort and polish to your grade, with colour sorting available.

Biryani and pulao · Catering and restaurants · Retail packs in export markets

Variety	1121 basmati	Process	Parboiled (Sella)
Grain	Extra long	Packing	1 to 50 kg bags

PRICE ON REQUEST · MOQ 25 MT · PACK 1 – 50 KG BAGS

Super Kernel Basmati Rice

Aromatic long-grain white basmati, aged for fluffy results.

Super Kernel is a classic long-grain basmati prized for its aroma. The rice is aged before milling, which dries the grain and helps it cook up fluffy and separate. Cooked grains elongate and the fragrance fills the kitchen. It is a favourite for everyday rice, pilaf and special-occasion dishes, and is sold polished white. Choose the grade and broken percentage that suits your market, packed in AGS-branded bags.

Everyday and festive cooking · Retail packs · Hotels and restaurants

Variety	Super Kernel basmati	Process	Aged, polished white
Grain	Long and aromatic	Packing	1 to 50 kg bags

PRICE ON REQUEST · MOQ 25 MT · PACK 1 – 50 KG BAGS

IRRI-6 White Rice (5% broken)

Everyday long-grain white rice for wholesale and food service.

IRRI-6 is a long-grain white rice grown widely in Pakistan and exported in large volumes. It is firmer and less aromatic than basmati, and more affordable, which is why wholesalers, institutional kitchens and food processors choose it. Cooked rice is fluffy and separate, and it suits everyday meals, fried rice and rice flour. We offer 5% broken as standard and can supply other broken grades on request.

- Wholesale and food service
- Fried rice and everyday meals
- Rice flour and food processing

Variety	IRRI-6	Broken	5% typical
Colour	White	Packing	25 or 50 kg PP bags

PRICE ON REQUEST · MOQ 25 MT · PACK 25 / 50 KG PP BAGS

Parboiled Rice

Golden, firm-textured rice that holds up in large-batch cooking.

Parboiled non-basmati rice, steamed in the husk before milling. This gives a golden, firm grain that resists overcooking and holds its shape in large pots, so it is common in canteens, catering and export markets that prefer a hardy rice. The process also helps keep grains from sticking together. It is available as a long grain, 5% broken, packed in PP or jute bags.

- Catering and canteens
- Hotels and banquet kitchens
- Markets that prefer firm rice

Type	Parboiled long grain	Broken	5% typical
Colour	Golden	Packing	25 or 50 kg PP or jute bags

PRICE ON REQUEST · MOQ 25 MT · PACK 25 / 50 KG PP BAGS

SEEDS, PULSES AND MORE

Natural & agri

4 products. Price on request.

Natural Sesame Seeds

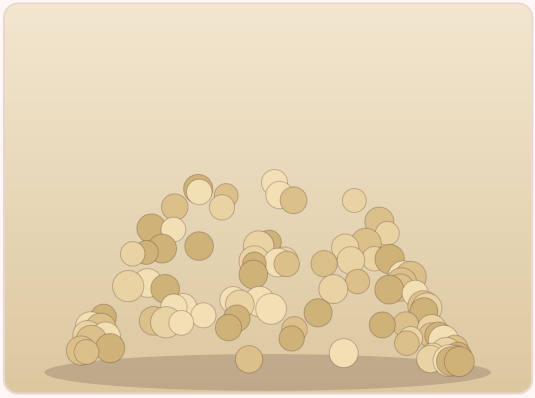

Cleaned sesame seeds for bakery, oil and tahini makers.

Natural sesame seeds, cleaned and sorted for bakeries, oil pressers, tahini makers and snack brands. Seeds are machine-cleaned to remove stalks, dust and stones, then sorted by size and colour. We can supply natural unhulled seeds and, on request, hulled seeds. Sesame is stored dry and packed in jute or PP bags, with fumigation and documents as your market requires.

Bakery toppings | Oil and tahini production | Snack bars and confectionery

Type	Natural, unhulled (hulled on request)	Colour	Cream to light brown
Cleaning	Machine cleaned and sorted	Packing	25 or 50 kg bags

PRICE ON REQUEST · MOQ 20 MT · PACK 25 / 50 KG BAGS

Kabuli Chickpeas

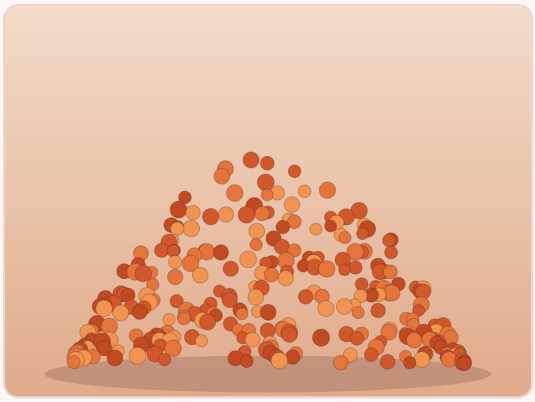

Large creamy chickpeas, sorted by size.

Kabuli chickpeas are the large, cream-coloured type used for hummus, salads, curries and canning. We sort them by size so every pack has an even bead, and clean them to remove stones and broken beans. They keep well when stored dry and are packed in 25 or 50 kg bags, or in small retail packs for supermarkets.

Hummus and falafel | Canning and ready meals | Retail pulse packs

Type	Kabuli	Colour	Cream
Sorting	By size	Packing	1 to 50 kg bags

PRICE ON REQUEST · MOQ 20 MT · PACK 25 / 50 KG BAGS

Red Lentils (Masoor)

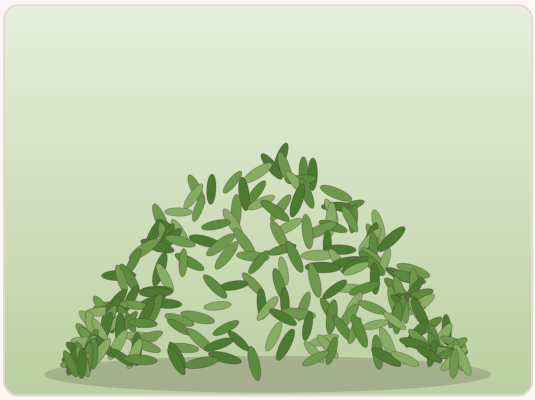

Split red lentils that cook fast, for retail and wholesale.

Red lentils, or masoor dal, are split lentils that cook in about 15 to 20 minutes with no soaking. They turn soft and golden in soups, dals and stews, which makes them a pantry staple in many markets. We clean and polish the lentils and pack them in retail pouches or 25 and 50 kg bags.

Soups and dals | Quick everyday cooking | Wholesale and retail packs

Type	Split red lentil (masoor)	Cooking	About 15 to 20 minutes, no soaking
Cleaning	Cleaned and polished	Packing	1 to 50 kg bags

PRICE ON REQUEST · MOQ 20 MT · PACK 1 – 50 KG BAGS

Green Mung Beans

Whole green mung beans for sprouting and cooking.

Whole green mung beans are small, olive-green beans used for sprouting, soups and desserts. They sprout quickly, which makes them a common ingredient in salads and stir-fries, while cooked beans turn soft and creamy. We clean and sort the beans and pack them in 25 or 50 kg bags or in retail pouches.

Sprouting | Soups, curries and desserts | Wholesale and retail packs

Type	Whole green mung	Colour	Olive green
Cleaning	Cleaned and sorted	Packing	1 to 50 kg bags

PRICE ON REQUEST · MOQ 20 MT · PACK 25 / 50 KG BAGS

QUALITY

Grading, inspection and testing

Every product is graded before it is packed. The limits for your order are agreed in writing and confirmed by a test report for your batch.

Grading

Salt is sorted by crystal colour and sieved to size. Rice is graded by grain length, broken grain, colour and moisture. Seeds and pulses are cleaned, then graded by size and colour.

Inspection points

- ✓ Incoming material
- ✓ During processing
- ✓ Before packing
- ✓ Before loading, with a retained sample

Typical specifications

PRODUCT	GRADE OPTIONS	TYPICAL SPECIFICATION
Himalayan pink salt	Fine, medium, coarse, granules, lumps	Natural pink to white crystals, sieved to size, low moisture, no added colour
Black salt	Fine, coarse, lumps	Dark grey to black crystals, strong sulphur aroma, sieved to size
Industrial salt	Coarse and bulk	Grain size and purity agreed per use, packed in bulk bags
Basmati rice (1121, Super Kernel)	Sella, steam, raw	Extra-long grain, broken grain and moisture limits stated in the contract
IRRI-6 and parboiled rice	Broken grain percentage	Broken grain, whiteness and moisture limits stated in the contract
Sesame seeds	Natural, by purity grade	Purity, moisture and foreign matter limits stated in the contract
Chickpeas, red lentils, mung beans	By size and colour	Size range, split and damaged grain, moisture and foreign matter limits stated in the contract

Testing

- ✓ Colour and appearance check against the agreed grade
- ✓ Moisture measurement
- ✓ Purity and mineral content test for salt, by laboratory on request
- ✓ Pre-shipment sample sent to you on request
- ✓ Sieve test for grain size
- ✓ Foreign matter, broken and damaged grain count
- ✓ Grain length and cooking test for rice

Certificates and lab reports are supplied for your batch on request. We claim only the standards we hold.

SHIPPING AND PACKING

From Karachi to your port

Sea freight

Full 20 ft and 40 ft container loads for salt, rice and agri products.

Air freight

Samples and trial orders can go by air so you can check quality first.

Terms

- ✓ Cartons and PP or jute bags for bulk and catering
- ✓ Bulk bags for industrial salt
- ✓ Eco-friendly options such as jute and kraft paper on request
- ✓ Every pack carries the AGS brand

FAQ

Frequently asked questions

What is the minimum order?

The minimum order depends on the product and is shown on each product card. We prefer full container loads, and smaller trial orders can be discussed. Send your quote list and we confirm what is possible.

Can I get a sample before I order?

Yes. Samples can be requested for any product and are usually sent by air so you can check quality first. Tell us the product, grade and your address when you ask.

What are the prices?

Prices are given on request, because they depend on the product, grade, packing, quantity and destination. Build a quote list and we reply with a price for your order.

What payment terms do you accept?

Payment terms are agreed for each order. Terms commonly used in export trade, such as bank transfer and letter of credit, can be discussed when you send your enquiry.

How long does an order take?

Lead time depends on the product, the quantity and your destination port. We give you a lead time in your quote, and our Karachi office keeps you informed until the cargo is on its way.

Which packing options do you offer?

Salt, rice and agri products are packed under the AGS brand in pouches, jars, grinder bottles, cartons and bags. Eco-friendly options such as jute and kraft paper are available. See our sustainability page.

Which shipping terms can you quote?

We can quote FOB Karachi, or CFR and CIF to your destination port, by sea in 20 ft and 40 ft containers. Samples and small orders can go by air.

Which documents come with a shipment?

We prepare the export documents your destination needs and help with any extra papers your country asks for. Tell us your port and any special requirements when you enquire.

Do you have test reports and certificates?

We issue a test report for your batch on request. We only show certificates that we actually hold, and any we hold are listed on our Quality page.
